Thanks Chip. I recognize that this is a preliminary review and conclusion by you and your team and that EPA cannot make a definitive decision until the LWG formally proposes a list. Thank, Jim.

Jim - The list below is generally consistent with our assessment & it looks like you've done an adequate search. We are not aware of additional data sets that are critical to the RI.

Chip, the following list comprises data sets that may be added to the RI (please keep in mind that Exec has NOT yet determined whether to dispute the addition of ANY data sets to the RI). Please let me know if this list does not contain a data set that EPA feels is critical to the RI. The data sets marked with asterisk (*) have already been added to the project database for the FS.
